

Ad Hoc Reporting

Faster, more productive health benefit management solutions

Transaction data generated by EnCore can be a rich source of useful information. EnCore's user friendly ad hoc reporting tools help you leverage your data to exploit cost reducing opportunities, make better business decisions and provide better customer service.

▶▶▶ EnCore Offers:

- ▶ Customized reporting capabilities using Crystal Decisions™ products
- ▶ EnCore Data Mart for easy access to information
- ▶ Windows based GUI (graphical user interface) application
- ▶ Real-time access to information stored in the claims system
- ▶ Training on the data structures in the EnCore System

▶▶▶ EnCore Advantages:

- ▶ Allows you to create reports according to your business needs
- ▶ User Friendly solution with easy access to data
- ▶ Export reports to an application such as Excel, Word or the Web
- ▶ Create reports on demand as opposed to custom enhancement requests
