

SaaS Services

Faster, more productive health benefit management solutions

EnCore SaaS Services deliver automated Claims Management solutions wherever and whenever you need them. Reduced costs, solid reliability and secure HIPAA compliant transactions make an EnCore SaaS solution particularly attractive. Overhead costs associated with on-site solutions are reduced to a minimum. Let EnCore host the system for you in our data center while you access it remotely. You no longer need to worry about backing up your system, maintenance or disaster recovery of the server.
